BLACK NIGHT VIPER

TECHNOKONTROL AVIATION THE EAGLE EYE LAW ENFORCEMENT PROGRAMME

Throughout history protecting ones assets, nationals, borders, economy, future and fighting against those attacking these principles has and always will be a paramount issue for any government or private enterprise anywhere in the world. Security and safety of strategic assets aren't something which is taken lightly and great amount of financial resources are spent, invested and allocated to protect all of us in different ways and manners depending on each countries or private enterprises issues, needs or policies.

Due to this Technokontrol Aviation has designed and is manufacturing "Law Enforcement Hydroplanes" which allow anyone to benefit from a low cost safety & security investment programme with the benefits of creating the bases of a national Air force, Law enforcement, Ecological Policing Units.

An aerial photograph of a coastline. The foreground shows a dark green body of water with white, frothy waves breaking against a rocky shore. The background features a hazy, brownish landscape, possibly a beach or dunes, under a bright sky.

EAGLE EYE I PRIVATE/SPORT

The Eagle Eye I is our amphibious aeroplane from Technokontrol to be used as an efficient aerial observation and safety control platform. It has a two seats side by side assembly with a large cockpit (1.10 m width) and with exceptional visibility.

CHARACTERISTICS & MORE INFORMATION

<http://technokontrol.com/en/products/eagle-eye-V-I.php>

EAGLE EYE II CROP BUSTER

Technokontrol Aviation wishes to present to our clients our unique and exclusive aerial crop-farming amphibious plane named The Eagle Eye II-Crop Buster. This is an ultra versatile aircraft intended for fertilizing works, surveillance, crop control and environmental protection.

CHARACTERISTICS & MORE INFORMATION

<http://technokontrol.com/en/products/eagle-eye-V-II.php>

EAGLE EYE III LAW ENFORCEMENT 2 SEATER

The Eagle Eye III is the perfect solution for any Nation wishing to control its borders, anti-terrorism activities, piracy and theft of natural resources and to obtain updated aerial surveillance and all types of ground, sea or river movements.

CHARACTERISTICS & MORE INFORMATION

<http://technokontrol.com/en/products/eagle-eye-V-III.php>

EAGLE EYE IV LAW ENFORCEMENT 5 SEATER BIMOTOR

A white hydroplane is shown in flight, viewed from a low angle from the side. The aircraft is positioned in the upper left quadrant of the frame. The background consists of a vast, snow-covered mountain range under a clear blue sky. The snow on the mountains is bright white, with some dark patches of rock or vegetation visible. The hydroplane's wings are long and thin, and its fuselage is sleek and aerodynamic. The overall scene conveys a sense of high-altitude aviation and scenic observation.

The Eagle Eye IV is our five passenger new hidroplane to be used as an efficient aerial observation and safety control platform or for private, commercial, VIP, pleasure, travel, Search & Rescue, medi-Aide, official use, etc. It has a five seats, two in the first file for the pilot and co-pilot, three second seating layout and storage capacity inside a large cockpit with exceptional visibility.

CHARACTERISTICS & MORE INFORMATION

<http://technokontrol.com/en/products/eagle-eye-V-IV.php>

EAGLE EYE V

SEARCH & RESCUE/MEDI-VAC

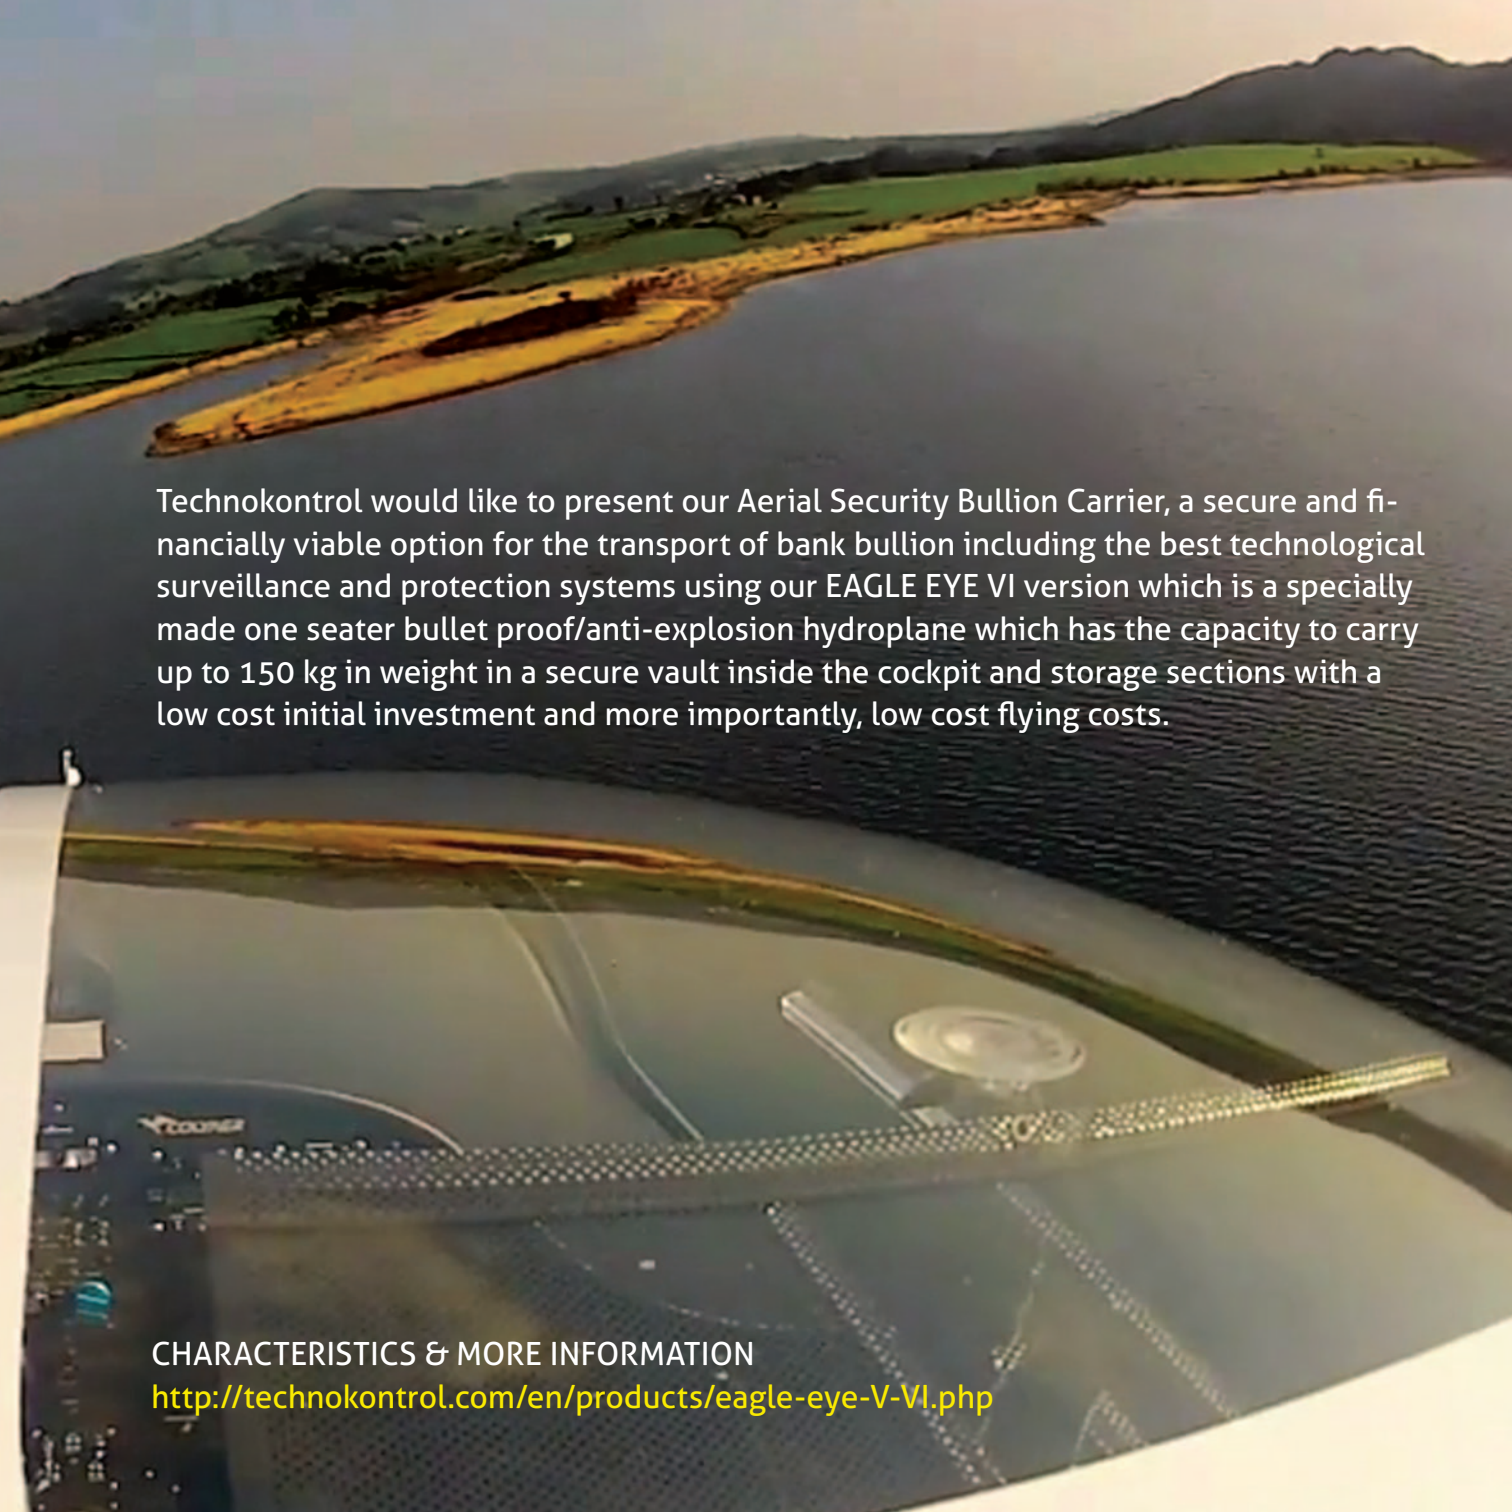

The Eagle Eye V has been carefully designed to take off and land in extreme short distances which normally are from as little as 150 metres to the 300 metres. The generous V-shaped hull allows the using of the aircraft with waves up to 30 cm high, as well the high location of the wings avoids the crashing of the waves on it's during the takeoff and the landing. The T-shaped Tail is also far enough from the ground to avoid the contact with waves.

EAGLE EYE VI BULLION/VALUABLE ASSET AERIAL CARRIER

An aerial photograph of a hydroplane on a large body of water. The hydroplane is a sleek, low-profile vessel with a dark hull and a light-colored upper section. It is positioned in the lower half of the frame, moving across the water. The background features a lush green shoreline with rolling hills and mountains under a clear sky. The water is dark blue with some ripples.

Technokontrol would like to present our Aerial Security Bullion Carrier, a secure and financially viable option for the transport of bank bullion including the best technological surveillance and protection systems using our EAGLE EYE VI version which is a specially made one seater bullet proof/anti-explosion hydroplane which has the capacity to carry up to 150 kg in weight in a secure vault inside the cockpit and storage sections with a low cost initial investment and more importantly, low cost flying costs.

CHARACTERISTICS & MORE INFORMATION

<http://technokontrol.com/en/products/eagle-eye-V-VI.php>

EAGLE EYE IX DEEP SEA RESEARCH & ANTI SUBMARINE

Technokontrol has developed the Eagle Eye IX version amphibious aircraft to reduce the cost of using expensive hi-tech aircraft and/or the use of sea vessels for under-water research programs or military operations. The benefits of using this version is that from the very simple operations and using the aircraft to sail as a vessel after landing on the sea, river, lake, for water operations using any SONAR equipment from research, environmental or military desired usage will allow the operator to save many hours in travelling time to and from locations in slower normal vessels.

SAFE HAVEN MILITARY MOBILE OPERATIONAL PLATFORM

BLACK NIGHT VIPER MILITARY TECHNOLOGIES & TECHNOKONTROL have studied extremely carefully the new concepts of modern day ,naval, river, land, aerial warfare, law enforcement including logistics, exploration, supply, refueling, rescue-safety, medical, humanitarian, multi-use rolls, in which due to the continuous financial government “cut backs” every cent invested in any technology or future technology in these fields of operations are extremely important thus having to design, manufacture, install, maintain, financially amortize by means of longer operational life these military, law enforcement, logistical, multi-use technologies, products and services.
